Mr. Suresh Bhadoria
Chairman
Index Group of Institutes

“Chairman’s Message”

Nursing is an extremely noble profession and for those aspiring to opt for it as a career will get a chance to serve the society and nation. Ever since the inception of the institution, our aim is to educate and develop the student's capabilities to meet the challenges in today's dynamic and globalized health care environment.

Index Nursing College is the avenue in nursing advancement where young enthusiastic minds are blessed and taught science and art of nursing. Index Nursing College is based on empirical values and pragmatic approach and committed to excellence. For enterprising young students our qualified and experienced faculty members ensure that the programme maintains high academic standards in both theoretical and practical skills.

PRINCIPAL MESSAGE

Our Vision at Index Nursing College Indore under the Malwanchal University Indore (M.P.), calls out to address the concerns of limited nursing manpower in our current society and world, by contributing well qualified and pioneer nursing professionals to the healthcare field. Since its inception in 2007, Index Nursing College has always lived to its vision, to actively partner for improvement in quality of health through educating, practicing and encouraging community to follow best standards to sustain and improve the health of our nation and the world.

We strongly believe that for an all-round development of a student in any field requires: most recent course content, competent teachers, intellectual knowledge sharing and learning environment, good infrastructure for both educational and practical hands-on experience. We at Index offer all the aforementioned educational aspects to our students but not limited to- nursing college library, opportunity for clinical learning in parent teaching hospital with 1300 beds, faculty well versed in interdisciplinary teaching, and a management working towards providing the best to the students. It all helps us promote and provide nursing education to our students using accepted and recent nursing scientific principles for theory and practice to produce skilled and highly competent qualified nurses to face challenges of the medical field.

Discipline, practice of moral values and integrity among the people are the foundations of this institution which helps inculcate- holistic care of patients with compassion, empathy, respect, dignity, knowledge of right practice, humanitarian spirit, faith and courage in our nurses.

Index Nursing College Indore a constitute of Malwanchal university, approved by INC (Indian Nursing Council) and offer degree programs for both graduate and postgraduate nursing.

We wish all our students a happy and highly rewarding academic nursing student life with a hope that you will contribute towards innovation in field of health, and would equip yourself with accepted scientific standards of nursing care through research and hard work. Our strong commitment and support towards each other, which would be manifested through your deeds and actions, will bring more pride and prestige of this nation.

Prof. (Mrs.) Achamma Varghese
Principal/Dean
Index Nursing College

PHILOSOPHY

Index Nursing College Indore believes that social transformation is possible only through dynamic education not to girls but to both girls and boys.

We believe in all-round development of students and society. The post graduate, under graduate and diploma nursing programmes are formal education within an academic framework specifically directed to development of skills, competencies and standards on which the practice of nursing is build that is required for practice of professional nursing and midwifery.

VISION

Index Nursing College , strives for an all round development of the students by generating academic excellence among nursing students based on body of nursing knowledge through education , novel use of technologies , research that ponders on health care , and needs of the people we serve at state, national and international level .Further these trained nurses will become responsible , responsive individuals who are always exploring , focused and proficient and are imbibed with laudable human values ,admirable traditions and time tested beliefs .

MISSION

To meet the needs of a changing health care system ,nurses must be prepared as clinicians who can extent transformative leadership and faculty teaching in academic institutions must have the pedagogical knowledge and skills to design and implement programs that will prepare such leaders . Our institution is committed in providing superior patient care through a team based approach and also committed in the dissemination of high quality and innovative research oriented nursing education , to prepare graduate nurses who may serve the society through professional nursing roles and could provide ethical leadership in practice ,administration and to meet challenges of providing affordable quality care to diverse population. The core values adopted are Integrity, creativity, courage, Stewardship, compassion, empathy and competence .

AIMS

The aims of nursing programme being run by the institution are:-

To prepare skilled nurses to assume responsibilities, make independent decision, accept challenges and apply knowledge and skills in practice to become a competent nurse in providing promotive, preventive, curative and rehabilitative services to the people across their life span in wide variety of health care setting in hospitals and community area.

To prepare graduate nurses to assume the role of nurse educator, clinical instructor, nurse supervisor, manager, researcher, leader, advocate, counselor etc. in clinical and public health Settings.

OBJECTIVE

- Demonstrate advance competence in practice of nursing by providing nursing care based on steps of nursing process in collaboration with the individuals and groups.
- Demonstrate critical thinking skills in making decisions in all situations in order to provide quality care.
- Provide promotive, preventive, curative and restorative health services based on national health policies and programs.
- Demonstrate understanding of health practices, culture and beliefs, behaviour and other factors, which affect health of individuals and community.
- Practice code of ethics and professional conduct and acceptable standards within the legal boundaries.
- Establish collaborative relationship with members of other disciplines.
- Participate effectively as members of the health team in health care delivery system.
- Demonstrate skills in teaching to individuals and groups in clinical and community health settings.
- Utilize the latest trends and technology in providing health care.
- Demonstrate awareness, interest and contribute towards advancement of self and of the profession.
- Conduct evidenced base research studies in various settings and utilizes the research findings to improve the quality of care.
- Conduct evidenced base research studies in various settings and utilizes the research findings to improve the quality of care.
