INDEX INSTITUTE OF DENTAL SCIENCES
Department of Conservative Dentistry & Endodontics
CONS - ENDO DAY CELEBRATION
7th March, 2018

Session I – Lecture presentation- 10:30am-1:00pm

- The science behind nanofill technology & its significance in Multilayering.
- Shade selection: How to correlate the perceived colour of a tooth with actual restoration to eliminate mismatch.
- The natural layering concept – what is it, why do we need to know, & how to do it! Use of opaque, body, & enamel shades – building color & vitality
- Step by step natural layering for class 4 defects –Using a silicone index for speed & accuracy. Creating phenomenal “edge effects” in minutes... not hours!
- Restoring macro & micro anatomy features in composites to get seamless restorations.
- Clinical tips on effective light curing.
- Finishing & polishing procedures –solves all confusion about getting a long lasting polish on composite surfaces.

VENUE: LECTURE HALL 1, IIDS

Session II- Demo (on model)- 2:00pm onwards

- Class IV incisal fracture build up with multiple shades of nanocomposite using Putty index technique.

- Slogan Competition : *“Each tooth is indispensable.”*
- Poster Competition : *“Root canal treatment- The
Tooth Saviour”*

Co-ordinators:

Dr Kuldeep S. Rana: 8554974275

Dr Khushboo Kothari : 9039400600
